KEY STRENGTHS

- Equipment Damage Assessment
- Soot & Fire Decontamination
- Water Intrusion Remediation
- Analytical Sampling
- Facilitation of Testing, Repair & Calibration
- Service Contract Reinstatement
- Project Management

CONTINUING EDUCATION

- Thermography
- Respiratory
- Hazard Communications
- Slips Trips and Falls
- Driving Safety
- Electrical Safety
- Hearing Conservation
- Back Safety
- PPE Safety
- Lockout Tag out Safety
- Ladder Safety
- Fall Protection
- Wipe Samples
- IPC Training

CERTIFICATIONS

- IPC-A-610 Acceptability of Electronic Assemblies
- 40 Hour Hazwoper Certification

REPRESENTATIVE PROJECT EXPERIENCE

Tanzania, Africa

Fire and smoke affected two large Internet and cellular phone data centers. Storage arrays, computer servers, network switches, uninterruptible power supplies.

Nairobi, Kenya

Fire at international airport.

Carman, Mexico

Fire aboard a drilling platform in the Gulf of Mexico. Power panels and navigation electronics

Hickory, North Carolina

Fire in a large lithium battery manufacturing plant. Production equipment along with control and power panels.

Jacksonville, FL

Fire in a large lithium battery manufacturing plant. Robotics, control and power panels.

Elko, NV

Casino loss, 250+ video and reel slot machines.

Nashville, TN

Large university data center fire. Computer servers, networking gear and data storage equipment.

St. Louis, Missouri

Fire to two food processing facilities. Production equipment, motors, pumps, shop equipment, building electrical and control circuitry.

Baytown, Texas

Flooding to a large chemical plant.
